Why PDS Decor Panel?

Superior Thermal Insulation

With an 8mm thickness, our panels maintain a stable chemical and physical structure. This ensures long-lasting and reliable insulation performance.

Modern Decorative Wall

Available in a variety of colors and patterns, —ideal for all your feature walls.

Easy to Install

Fast, Clean, and Eco-Friendly. Easily update older interiors without demolition—our panels offer a quick, mess-free solution that saves time and reduce environmental impact.

Performance & Durability

Highly resistant to heat, moisture, acids, and alkalis. Our panels are long-lasting, low maintenance, and easy to clean.

Eco-Friendly & Safe

Crafted from recyclable materials with no harmful emissions. Formaldehyde levels meet E0 environmental standards. With no lingering odors, spaces are ready for immediate use after installation.

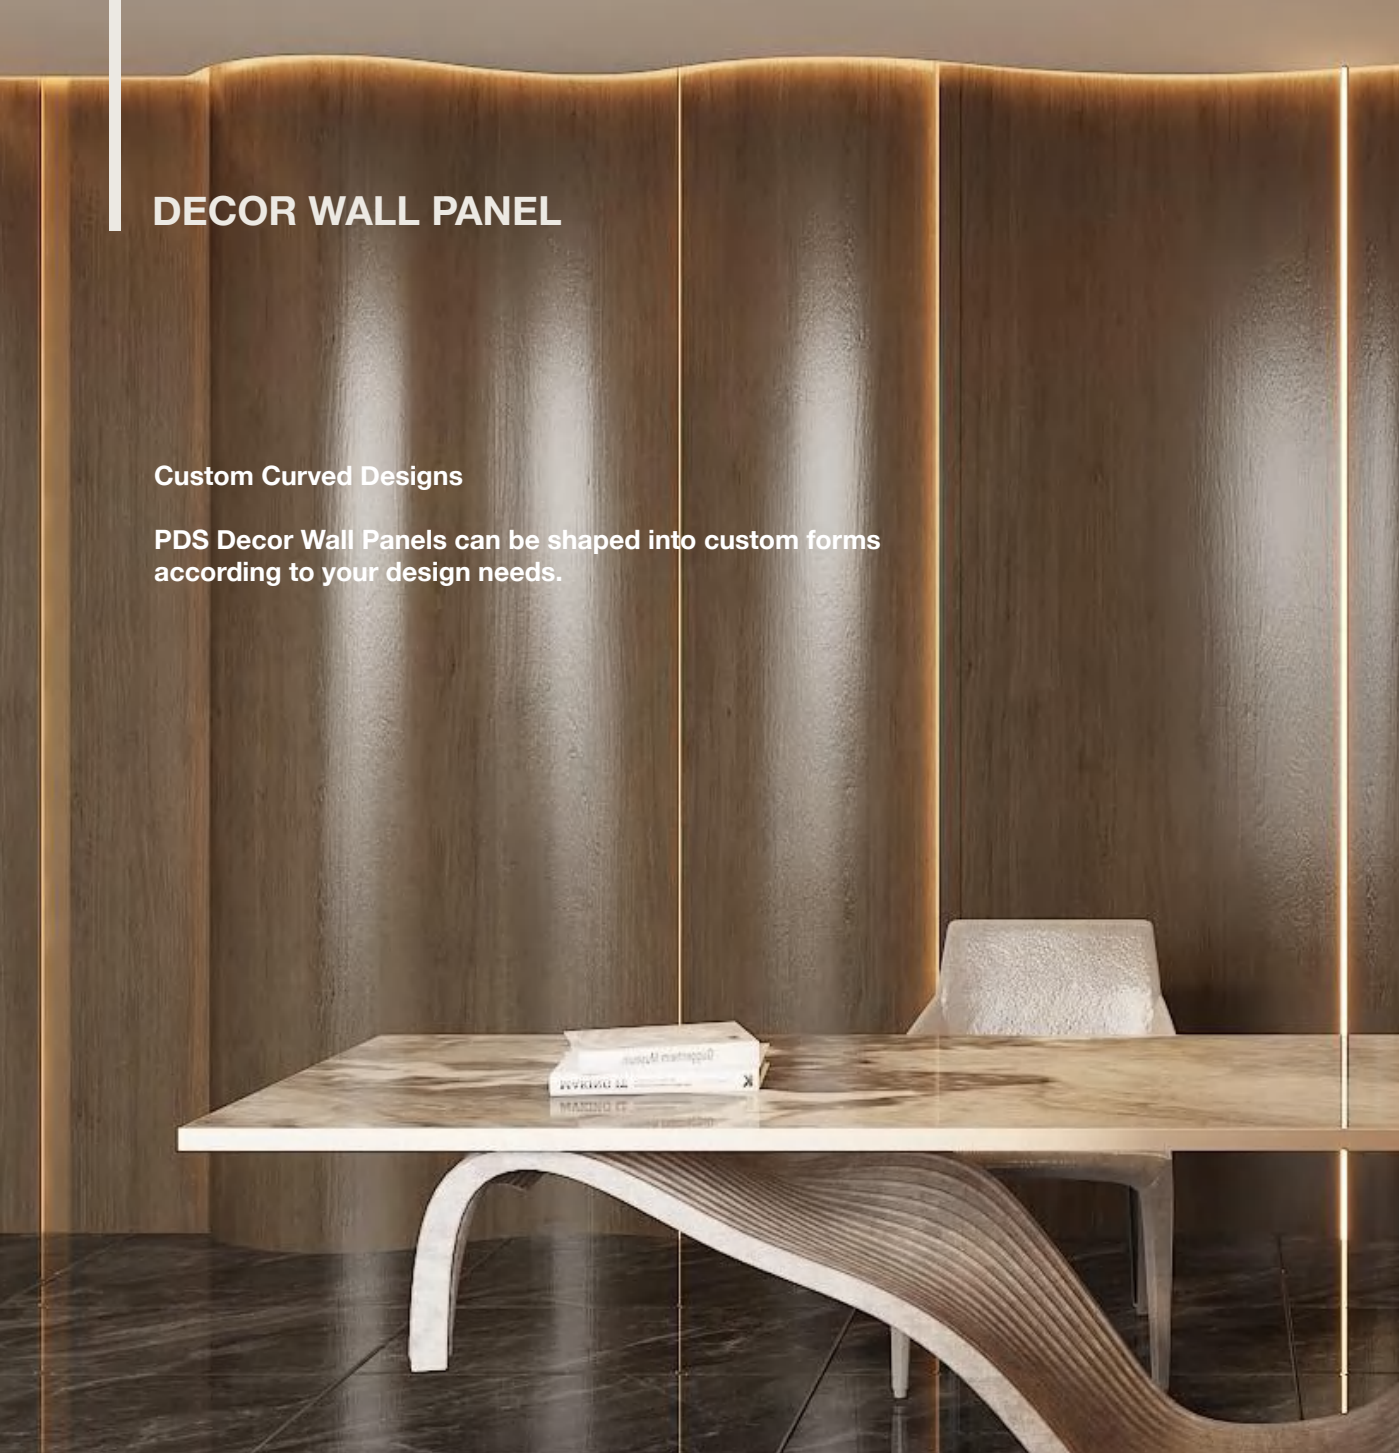

Fire-Resistant

Certified to B1 fire safety standards with an oxygen index of up to 40.

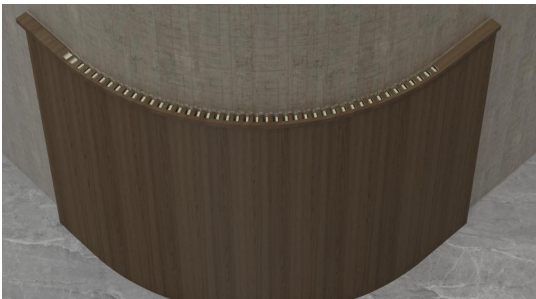

DECOR WALL PANEL

Custom Curved Designs

PDS Decor Wall Panels can be shaped into custom forms according to your design needs.

The pre-grooved back structure ensures a seamless fit over curved surfaces.

Premium Quality Starts with Superior Materials

High density and durability

8mm Thick Core: Built strong with high-density cores for lasting protection.

Ease of cleaning

The surface adopts anti-scratch protective layer.

Non-flammable

Combustion performance meets B1 level.

Moistureproof

After experiments,It will not deform or get moldy after being soaked for a long time.

ECO-Friendly Material
Healthy Lifestyle

Safe & Trusted Composition,
our panels use polymer resins also found in
trusted baby products,
combined with natural wood powder.

- ANTI - SCRATCH PROTECTIVE LAYER
- ADVANCED DECORATIVE FILM
- ECO-FRIENDLY BASIC MATERIALS

Color Inspiration
– Natural Wood Grain

The warmth of natural wood tones elevates any interior with timeless elegance. These refined finishes reflect a modern sense of spatial design, ideal for commercial and residential applications.

Cleaning and Maintenance Suggestions

Cleaning & Maintenance Guidelines

Promptly wipe spills with a clean towel.

For stains, gently rub with a towel dampened with 75% alcohol.

Use a white cotton cloth or soft brush for best results.

For recent stains (under 30 minutes), try a towel with 5% dish soap or neutral soap first.

Note: Minor color differences meet industry standards and are not considered defects.

Over-cleaning may affect the surface finish.

Common stains (sweat, soot, ink, chocolate, coffee, wine, etc.) are removable with dish soap or 75% alcohol.
